📍 Noida, Uttar Pradesh – 201301

Objective

Data Analyst skilled in SQL, Python, Advanced Excel, and Power BI with strong experience in data cleaning, EDA, visualization, KPI reporting, and dashboard development.

Proficient in translating business requirements into actionable insights using statistical analysis, predictive modeling, and BI tools to drive data-driven decisions.

Skills

- **Programming & Querying:** SQL (Joins, Subqueries), Python (Pandas, NumPy, Seaborn, Matplotlib, Scikit-learn)
- **Data Visualization:** Power BI (ETL, DAX, Data Modeling, Interactive Dashboards), Advanced Excel (Pivot, VLOOKUP/XLOOKUP), Google Sheets
- **Analytics:** Data Cleaning, Preprocessing, EDA, Statistical Analysis, KPI Reporting
- **Machine Learning:** Supervised/Unsupervised Learning, Model Evaluation, Feature Engineering
- **NLP:** Text Preprocessing, Sentiment Analysis, Text Classification

Experience

Excel Reporting

Truevisory Realty Pvt. Ltd. Noida Uttar Pradesh | Sep 2023 – Dec 2024

- Analyzed customer investment data using Excel dashboards and reports.
- Applied Pivot Tables, VLOOKUP, and charts to identify high-value clients and trends.
- Awarded “First Step Achiever” and promoted for consistent performance.

Certifications

- **Advanced Certification in Business Analytics** – IIT Guwahati, 2025
- **Certified Data Scientist** – AnalytixLabs(Python), Dec-2025
- **Certified Data Analyst** – AnalytixLabs (Excel, SQL & Power BI, Python), June-2025

Projects

• Movie Streaming Data Analysis | SQL

Joined and queried Catalogue, Consumption, Rating, Subscription datasets using SQL joins and aggregations to derive insights.

• Sales Dashboard | Power BI

Built interactive BI dashboard with KPIs, DAX measures, slicers, bookmarks, tooltips, and Geo Maps to visualize sales performance.

• Customer Analysis for Retail Transactions | EDA

Performed data cleaning, merging, and exploratory data analysis (EDA) on customer, product, and transaction. Generated summary reports, frequency distributions, histograms, and key metrics to support sales trends.

• Predicting Customer Credit Card Consumption | Banking Analytics

Performed EDA, outlier removal, and feature engineering to analyze credit card spending patterns, segments customers. Built distance- and tree-based models to forecast individual credit consumption.

• Customer Review Analysis | E-Commerce

Performed EDA and Text Preprocessing and created word clouds, frequency plots, sentiment analysis. Classification to predict product recommendations and ratings from customer reviews.

Education

Post Graduate in Economics, V. B. S. P. University, Jaunpur Uttar Pradesh (2021–2023)
